

Annual Impact Report 2023

For Kids' Sake
International

Support. Educate. Empower.

Everyone deserves a chance *to be happy*

2023 was a year of transition and expansion. We stretched our arms a bit wider this year to help more children and families globally.

The Year 2023 *in review & ahead*

Thank you for supporting the transition from For Kids' Sake (FKS), to the newly incorporated For Kids' Sake International (FKSI) with expanded services.

For Kids' Sake International's mission is to support, educate and empower underprivileged children, orphans, students, and families for the provision of food, clothing, shelter, healthcare and education.

Billions of people struggle to meet their basic needs and receive an education.

Caring for the world's most vulnerable children and families allows for humanity to progress by giving individuals the opportunity to realize their full potential.

As we look forward to this coming year, our focus is to expand services to children in the USA, while keeping our commitments to the kids who rely on us. This expansion will require us to raise \$275,000 in 2024. We look forward to uplifting children's lives together.

-Shema Ruperto, Executive Director

Winter Highlight

Officially reincorporated as a new non-profit, For Kids' Sake International, in order to expand our reach beyond Bangladesh to serve more children and families in need around the world.

Summer Highlight

Performed a site visit to the service projects in Bangladesh. We were impressed by the professionalism and organization of the Dayemi Foundation staff. You can be assured your funds are used effectively and efficiently.

Spring Highlight

Partnered with Little Eden's Easter program in Botswana where 25 disadvantaged youth came together for a week of worship, choir and band. It provided a healing circle for the children to reconnect after COVID.

Autumn Highlight

Began a partnership with Gambia Bayoolu to help support 25 orphaned children in the Gambia by supplying them with basic needs, removing barriers to education, and providing vocational and computer training.
